

### Professional softshell vest with warm inner lining

Sturdy, durable softshell fabric  
 Wind- and water-repellent (2,000 mm water column)  
 Breathable and permeable to water vapour (2,000 g/m<sup>2</sup>/24h)  
 Inside stand-up collar with soft fleece  
 Shoulder part reinforced with CORDURA®  
 Full-length, covered zip with storm flap  
 Zipped side pockets, breast pocket and inner pocket  
 Breast pocket with flap, mobile phone pocket inside  
 Reflective details (without protective function/no PPE) at the front and at the back  
 Zip for decoration at the back

**Fabric:** Outer fabric: 100% polyester  
 Lining: 100% polyester  
 Trimming: 100% polyamide  
 Padding: 100% polyester

**Country of origin:** Volksrepublik China

**Customs tariff number** 62113390

**CORDURA®**

CORDURA® is a very sturdy, textured polyamide fabric, which is extremely tear- and abrasion-proof. Special yarns, specially developed weaving techniques, dyeing methods and additional textile finishing ensure that products with CORDURA® can be used as durable and comfortable workwear.

**Softshell**

Softshell with TPU membrane consists of three layers. Due to the microporous TPU membrane as middle layer the material is water-proof, wind-proof and breathable at the same time.

**Breathable-Permeable to water vapour**

Functional textiles must have the ability to transport moisture from the skin to the fabric surface as fast as possible. Permeability shows how much steam in grams can evaporate on a surface of 1 m<sup>2</sup> within 24 hours. The higher this figure, the more breathable the textile is.

**Water column from 1.500 mm**

The ability to withstand water pressure without moisture penetrating into the material is given by the water column (mm). The minimum standard is a water column of 1,500 mm.
