

Professional softshell jacket with warm inner lining

Sturdy, durable softshell fabric
 Wind-and water-repellent (2,000 mm water column)
 Breathable and permeable to water vapour (2,000 g/m²/24h)
 Inside stand-up collar with soft fleece
 Detachable, adjustable hood
 Shoulder part reinforced with CORDURA®
 Full-length, covered zip with storm flap
 Warm inner sleeve cuffs
 Zipped side pockets, breast pocket and inner pocket
 Breast pocket with flap, mobile phone pocket inside
 Reflective details (without protective function/no PPE) on sleeves and at the back
 Zip for decoration at the back

Fabric: Outer fabric: 100% polyester
 Lining: 100% polyester
 Trimming: 100% polyamide
 Padding: 100% polyester

Country of origin: Volksrepublik China

Customs tariff number 62019300

Features

CORDURA®

CORDURA® is a very sturdy, textured polyamide fabric, which is extremely tear- and abrasion-proof. Special yarns, specially developed weaving techniques, dyeing methods and additional textile finishing ensure that products with CORDURA® can be used as durable and comfortable workwear.

Softshell

Softshell with TPU membrane consists of three layers. Due to the microporous TPU membrane as middle layer the material is water-proof, wind-proof and breathable at the same time.

Breathable-Permeable to water vapour

Functional textiles must have the ability to transport moisture from the skin to the fabric surface as fast as possible. Permeability shows how much steam in grams can evaporate on a surface of 1 m² within 24 hours. The higher this figure, the more breathable the textile is.

Water column from 1.500 mm

The ability to withstand water pressure without moisture penetrating into the material is given by the water column (mm). The minimum standard is a water column of 1,500 mm.
